For each participant, this means maximum visibility, regardless of whether they are determined to be the winner.

5. Determination of the winner

At the end of the participation period, a jury will select three projects per category from the complete applications received to be nominated for the dive award prize. The final choice of the winner per category will be made by the jury. The composition of the jury is published on the dive award website (https://www.boot.com/dive_award). The result of a so-called Public

Voting will be taken into account as an additional vote.

The jury will base its selection of the winners on the following criteria:

- a. effectiveness: the project/product has the potential to have a clear and continuous impact in terms of the respective category;
- b. participation: As many people as possible are integrated into the project and/or can participate in it;
- c. networking: the project motivates further actors and achieves the greatest possible impact;

The jury will name the winners for each category from the nominated projects. The winners are announced at the awards ceremony, which takes place during boot Düsseldorf each January. All nominated projects/personalities will be invited to this event by boot Düsseldorf in due time. Alternatively, the award ceremony will take place in a hybrid format (consisting of both a face-to-face event and digital elements) or in a purely virtual format (consisting of digital elements only).
